Approval of this application and Applicant's proposed tariff will serve the public interest and offer several benefits to consumers in South Carolina. First and foremost, Applicant will offer its Customers the ability to have seamless service for intrastate, interstate and international services. The granting of Applicant's application is consistent with S.C. Code Ann. §58-9-280(B), as amended by 1996 Act No. 354, and, in that regard Applicant makes the following representations to the Commission:

11. Waivers and Regulatory Compliance

Applicant requests that it be exempt from any financial recording rules or regulations that require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). As a competitive provider, Applicant currently maintains its books and records in accordance with Generally Accepted Accounting Principles ("GAAP"). GAAP is used extensively by telecommunications carriers. Since Applicant utilizes GAAP, the Commission will have a reliable method by which to evaluate Applicant's operations. Therefore, Applicant requests to be exempt

from any and all USOA requirements of the Commission.

In addition, Applicant requests, pursuant to S.C. Reg. 103-610, that it be allowed to maintain its books and records at its headquarters location at 7530 Parker Road, Suite 210, Fairhope, AL 36532. In the event that the Commission Staff or the South Carolina Office of Regulatory Staff (“ORS”) finds it necessary to review Applicant's books, this information will be provided upon request to the Commission Staff or the ORS, or Applicant will bear the expense of travel for the Commission Staff or the ORS to examine the books and records located outside of South Carolina.

Applicant reserves the right to seek any regulatory waivers which may be required for Applicant to compete effectively within the state’s local exchange and resale market.

Applicant requests that all of its business service offerings be regulated pursuant to the procedures described and set out in Commission Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C, as modified by Commission Order No. 2001-997 in Docket No. 2000-407-C. It is Applicant’s intent by this request to have its business services regulated in the same manner as this Commission has permitted for AT&T Communications of the Southern States, Inc. (“AT&T”). Specifically, Applicant requests that the Commission:

- a. remove the maximum rate tariff requirements for its business services, consumer card, operator service, private line, and customer network-type offerings;
- b. presume that the tariff filings for these uncapped services be valid upon filing. However, if the Commission institutes an investigation of a particular filing within seven (7) days, the tariff filing would be suspended until further order of the Commission; and
- c. grant Applicant the same treatment as AT&T in connection with any future relaxation of the Commission’s reporting requirements.

Applicant respectfully requests that its local service offerings be regulated in accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in Docket No. 97-467-C. Specifically, Applicant requests that the Commission:

- (a) adopt for Applicant’s local exchange services a competitive rate structure incorporating maximum rate levels with flexibility for Applicant to adjust its rates below the maximum rate levels; and
- (b) permit Applicant’s local exchange service tariff filings to be presumed valid upon filing, subject to the Commission’s right within thirty (30) days to institute an investigation of such filings. At the discretion of the Commission, such filings would be suspended pending further order of the Commission and any such filings would be subject to the same monitoring process as is applied to other, similarly situated carriers.

12. Conclusion

This Application demonstrates that Applicant has the technical, financial and managerial resources to provide resold local exchange and interexchange telecommunications service within South Carolina. The granting of this Application will promote the public interest by increasing the level of competition in the telecommunications markets of the state. Competition of this nature will mandate that telecommunications providers will operate more efficiently and improve the overall service quality for consumers.

Approval of the Application of AltaWorx LLC will serve the public interest by offering consumers throughout the State of South Carolina a meaningful quality service option. Approval of this Application will also benefit consumers by creating greater competition in the telecommunications marketplace.
